

Leads from Indian Aerospace industry

Indo Italian & UCIMU project "Italian Machine Tools and Technologies for the Indian Aerospace Industry"

Sr. No.	Company Profile	Sector of Activity in Aerospace	Business interest with Italy
1	Manufacture and repair of Shrouds used in Aircraft Engines	<ul style="list-style-type: none"> - Aerospace sub systems and accessories and Ground equipment - Aluminum assemblies and parts 	<ul style="list-style-type: none"> - Units of LRU (Line replaceable unit) repair - Pneumatic/hydraulic/fuel Test Cells for LRU repair - Fully integrated Plasma spray/HVOF (High Velocity Oxygen Fuel) Systems
2	Manufacturer of engine oil pumps, cooling water pumps, damper and couplings for heavy duty diesel engines and aerospace components	<ul style="list-style-type: none"> - Aerospace sub systems and accessories and Ground equipment - Naval and Land systems, subsystems and accessories 	<ul style="list-style-type: none"> - Know how of mechanical subassemblies - Selling Italian products in Indian defence sector as have diverse customer base
3	Ground support and ground handling equipments, Aircraft MRO activities	<ul style="list-style-type: none"> - Aerospace sub systems and accessories and Ground equipment - Airframe and fuselage assembly - Naval and Land systems, subsystems and accessories - titanium machined parts 	<ul style="list-style-type: none"> - JV for ground handling equipments
4	Designing, developing and manufacturing all types of CNC machined precision components, assemblies, sub-assemblies, mechanical systems and equipments	<ul style="list-style-type: none"> - Aluminium assemblies and parts - Precision machined components - Airframe and fuselage assembly 	<ul style="list-style-type: none"> - JV with Aerospace machined component manufacturers and supply to European Defence and Aerospace companies

5	<ul style="list-style-type: none"> - CNC Machining, Milling, CAD CAM - Calibration & Inspection of Precision Measuring Instruments & Gauges - Third party Inspection. - Supply of Precision Measuring Instruments. - Reverse Engineering 	Precision Machined components	- Subcontracting in CNC machining of Precision machined components
6	Precision turned and milling components	equipment <ul style="list-style-type: none"> - Titanium machined parts - Aluminum assemblies and parts - Precision machined components - Consultancy 	<ul style="list-style-type: none"> - Special coatings - Aerospace component suppliers - Turn parts manufacturers - Blow moulding tools and machine manufacturers
7	Systems supplier for the manufacturing of Aeroplane Structure, Assembly Lines, Jigs and Tools	<ul style="list-style-type: none"> - Aerospace sub systems and accessories and Ground equipment - Naval and Land systems, subsystems and accessories - IT Hardware, Software, Electronics, Communications & Information Precision machined components - Airframe and fuselage assembly Consultancy 	- Products/technology for Aerospace, Defense and Automotive domains
8	Engineering Service Provider	Aerospace sub systems and accessories and Ground equipment	- Industrial CT Scanner
9	Manufacturing and Assembly of Precision Engineering Components.	Precision machined components	<ul style="list-style-type: none"> - Open for business proposals of manufacturing JV, technology transfer, agency, M & A etc - Laser welding
10	Manufacturer of metal bellows used in process industry	Aerospace sub systems and accessories and Ground equipment	- Agency / distributorship agreement
